MTWTFSS-

The Pacific disgrace

A Well-Founded Fear, screened on SBS on Wednesday, should not only disturb your sleep but your waking life itself. What John Howard and his cohorts did in the so-called "Pacific solution" make me wish I had not taken out citizenship. I urge the Rudd Government, not with any great hope, to right the wrongs of the previous administration.

Wilf Billington Corrimal

Shouldn't *A Well-Founded Fear* have been shown on Monday on the ABC and *The Howard Years* on SBS on Wednesday?
